FIG WORKING

CLIMATE RESPONSIVE LAND GOVERNANCE & DISASTER RESILIENCE: SAFEGUARDING LAND RIGHTS

MAIN OBJECTIVE

To build knowledge and capacity in the Asian region to address climate change and disaster-induced challenges in safeguarding land rights of vulnerable communities, emphasizing the critical role of land governance and disaster resilience.

SECONDARY OBJECTIVE

To foster collaborative partnerships among national and regional institutions, academics, and professionals from various organizations, including non-state actors, NGOs and private sector, to facilitate multistakeholder dialogues, knowledge sharing and technology transfer at the regional level.

SUB-THEMES

1. Climate Responsive Land Governance
2. Natural disaster resilience for communities, professionals and organizations
3. Cooperation and partnerships to safeguard land rights
4. Capacity Development for communities, professionals and organisations

OVERALL OBJECTIVE

For the Region

- Bring the Regional Agenda into discussion

For beyond the region

- Get acquainted with those agendas

For the Sponsors

- Explore your scope in the Region
