SUMMARY

Our industry has seen significant technological change in the last 75 years. Aerial platforms , SLAM, mobile or terrestrial scanning , and cloud solutions are the next phase of our transformational journey from steel tape and theodolite to the metaverse. As in the past, our role as surveyors and our industry domain has enabled us to support many of the related disasters (wildfires, earthquakes, floods,and hurricanes) that have plagued our planet in the last decade.

Next Phase Technological Solutions (12978)
